

# 10 Core Principles of Juvenile Probation - Animated Shorts

In 2024, APPA partnered with the Annie E. Casey Foundation and several subject matter experts to establish the 10 Core Principles of Juvenile Probation. Historically, professionals in the field of community supervision have grouped adults and children into a one-size-fits-all approach. It is time to breakthrough and move past that old mentality and meet justice-involved youth where they are - embrace research and implement values that set youth up for success.

Enjoy a new FREE animated series of shorts broken into two parts, created in collaboration with juvenile subject matter experts dedicated to elevating the field's performance and responses to young people involved in the justice system. Each animation is designed to highlight one core principle. However, viewers may notice an overlap with other principles, that ring true to the nature of working with justice-involved youth on probation.

## Learning Objectives

- Learn how to apply each pragmatic principle for successful client-centered outcomes.
- Identify each principle illustrated in one animated short.

## Part One

1. A Path to Success: Individualizing Probation
2. Path to Equity: A Journey of Understanding
3. Guiding Adolescents: Aligning Probation Practices with Developmental Research
4. Breaking Free: Simplifying Success on Probation
5. Practicing an Alternative to Confinement

**Part Two, will be available at APPA's 50th Annual Training Institute, August 2025.**
